

POWER REUNION 2.0

**WHEN: FRIDAY 15TH OF MAY
18:00 - 20:00**

We want to invite you to our (virtual) empowerment meeting! Let's transform social distancing into distant socializing! how are we doing in times of corona? how is the online semester going? how are you feeling studying abroad in this current global state of emergency? just because we are supposed to stay home for the most part, doesn't mean that we can't exchange and listen to one another. if you need a space to talk about the work load, frustration with videoconferencing that does not work, how difficult it is to concentrate on studying in this state of mind, or if you just want to connect with other people in similar situations, join us!

We want to create a Safe Space for BIPoC students, so everyone at ASH, who experience racism are welcome to join our Empowerment Space.

If you are interested, please send us an E-Mail to: empowerment@ash-berlin.eu

EmpA is looking forward meeting you!
